

FloraSan

 FloraSan

Organic Berry &
Herb Blend

100% ORGANIC
COLD-PRESSED
NO ADDITIVES

1. Sun-Ripened Organic Fruits

Quality begins in harmony with nature. Our fruits ripen under optimal conditions in pristine environments until they reach their full density of natural active ingredients. This slow, natural growth is crucial for developing a complex profile of phytochemicals and vitamins.

2. Gentle Harvesting

Timing is everything. We harvest at the exact moment when the concentration of vital substances reaches its peak. Careful handling of the plants ensures that the delicate structure of the berries is preserved and no oxidation occurs before processing begins.

3. Hand-Picked Selection

Maximum purity through manual care: Every batch is inspected by hand. Only flawless fruits that meet our strict quality criteria are selected for juice extraction. This meticulous selection process guarantees an end product of maximum biological integrity.

4. Cold-Pressed

To protect valuable enzymes and vitamins, we rely on consistent cold-pressing technology. Unlike industrial processes, we avoid heat during this step. This preserves the original cellular structure of the juice, allowing the bioactive components of the fruit to maintain their full potency.

5. Gentle Pasteurization

Safety without compromising nutritional value: We preserve our juices through brief and particularly gentle heating. This process is optimized to keep thermal stress to a minimum, ensuring that the natural aroma and heat-sensitive vital substances are best preserved.

6. Bottling in Glass

We bottle exclusively in glass to preserve purity and taste. This non-reactive packaging ensures our juices retain their natural health-promoting properties until the very first sip.

100% Organic Direct Juices

Ethnobotanical Treasures – The Wisdom of the Natural Pharmacy

The Purity of Cold-Pressed Craftsmanship **The Foundations of Our Botanical Philosophy**

At FloraSan, quality means respecting nature's original state. Through our gentle cold-pressing process, the delicate structures of the fruits are preserved without the use of high heat. We strictly avoid concentrates, added sugars, and synthetic additives. The result is a product of maximum biological integrity, protected in glass –pure, unadulterated, and meeting the highest clean-label standards.

The Heritage of Traditional Plant Medicine

Our work is rooted in the ancestral wisdom of the natural pharmacy. We view fruits as carriers of resilience, bridging the gap between ancient herbalism and modern science. Our production follows the principle of "minimal intervention" to safeguard the vibrant colors and powerful profiles that have been valued for generations to support holistic health.

Our approach is defined by the following core principles that ensure the functional power of every drop we produce:

- **The Signature of the Wilderness:** Plants from harsh, untouched environments develop a unique resilience. We capture this "vital force" to support your body's natural balance and inner strength.
- **Holistic Synergy:** Nature offers complex active compounds rather than isolated substances. Our essences preserve the interplay of pigments and tannins historically prized for their purifying properties.
- **A Natural Shield:** The intense characteristics of our fruits are a testament to their biological potency. For generations, they have served as a natural support for the body's own protective mechanisms and vitality.

100% Cold-Pressed Cranberry Juice.
Pasteurised. No added sugars or
preservatives.

natural cranberry juice - 330ml

Character & Flavor

This juice is the pure essence of the cranberry: tart, refreshing, and characterized by a strong, vibrant acidity. It impresses with its deep red color and an aroma that reflects the untouched wilderness of nature. Whether as an invigorating morning shot, a base for high-quality mixed drinks, or lightly diluted with water, it offers an unadulterated taste experience for connoisseurs.

Traditional Production

Quality begins with the selection of the berries. After harvesting, the fruits are processed using a particularly gentle cold-pressing method. By avoiding high temperatures and chemical additives, the natural profile of the cranberry is fully preserved. Subsequent flash pasteurization guarantees shelf life without compromising the valuable ingredients or the brilliant color.

Health & Nutritional Science

Our formula utilizes the natural synergies of the cranberry to support your body holistically:

- **Premium Cell Protection:** Thanks to its Vitamin C content, this juice contributes to the protection of cells from oxidative stress. This is essential for shielding cells from free radicals caused by environmental factors.
- **Immune System Support:** Vitamin C makes a proven contribution to the normal function of the immune system. Especially during periods of physical stress, this juice supports the body's natural barriers.
- **Vitality in Everyday Life:** To counteract symptoms of tiredness, Vitamin C contributes to normal energy-yielding metabolism, helping you master daily challenges with more energy.
- **Natural Purity:** By consistently avoiding added sugars, this juice is ideal for a health-conscious diet that focuses on natural nutrient density rather than empty calories.

100% Cold-Pressed Raspberry Juice.
Pasteurised. No added sugars or
preservatives.

natural raspberry juice - 330ml

Character & Flavor

A sip of this juice is like a walk through a summer garden. The delicate sweetness of ripe raspberries pairs with an elegant, fruity acidity. The bouquet is intensely aromatic, and the texture is silky. A luxurious treat that excels both on its own and as a refinement for desserts.

Traditional Production

Raspberries are extremely delicate, which is why we process them with the utmost care. They are pressed immediately after harvesting to prevent the oxidation of aromas. We rely on mechanical pressing without the use of extraction agents. This guarantees a 100% direct fruit juice that lives up to its name—honest, pure, and free from artificial flavorings.

Health & Nutritional Science

The raspberry offers much more than just an excellent aroma—it is a valuable provider of micro-nutrients:

- **Structural Support:** This juice is a natural source of Manganese. This important trace element contributes to the maintenance of normal bones, supporting the fundamental framework of your body.
- **Connective Tissue Support:** Manganese plays a crucial role in the normal formation of connective tissue, which is important for the structural integrity of various tissues throughout the organism.
- **Cellular Shield:** The combination of natural antioxidants and Manganese contributes to the protection of cells from oxidative stress.
- **Metabolic Activation:** Manganese contributes to normal energy-yielding metabolism. Combined with a balanced diet, this juice supports natural vitality and performance.

NATURAL BLUEBERRY JUICE 330ML

100% Cold-Pressed Blueberry Juice.
Pasteurised. No added sugars or
preservatives.

natural blueberry juice - 330ml

Character & Flavor

Deep, mild, and possessing a noble sweetness—our blueberry juice is an experience for all the senses. The dark color is a testament to the high concentration of the wild fruit. Its taste is gentle and long-lasting, with a nuance of forest aroma that sets it apart from ordinary juices.

Traditional Production

We use only fully ripe berries that have reached their optimal sugar-acid ratio. Pressing is carried out slowly and with low pressure to optimally dissolve the valuable pigments from the skin without releasing bitter substances. Every bottle contains the pure power of the whole berry, gently preserved through state-of-the-art bottling technology.

Health & Nutritional Science

The deep blue pigmentation of the blueberry is an indicator of its valuable ingredients:

- **Circulatory Support:** Thanks to the Vitamin K it contains, this juice contributes to normal blood clotting, an essential factor for a functioning vascular system.
- **Bone Health:** Vitamin K also contributes to the maintenance of normal bones. This makes the juice an ideal supplement for a diet focused on long-term stability and health.
- **Protection of Cell Integrity:** The nutrients in the juice contribute to protecting cell constituents from oxidative damage, thereby promoting general well-being.
- **Mental Freshness:** The vitamins included support normal psychological function. A glass of blueberry juice can thus make a valuable contribution to your daily mental balance.

100% Cold-Pressed Black Currant Juice.
Pasteurised. No added sugars.

natural black currant juice - 330ml

Character & Flavor

The black currant, also known as Cassis, offers an unmistakably spicy and tart aroma. This juice is powerful, full-bodied, and possesses a remarkable depth. It is the perfect choice for those seeking an intense fruit experience with a harmonious balance of acidity and herbal notes.

Traditional Production

To capture the complex aroma of the black currant, we use a process that refines the berries immediately after harvest. We avoid clarifying agents and unnecessary filtration to preserve the natural density of the juice. The result is a direct juice that offers the full power of the currant in concentrated form.

Health & Nutritional Science

The black currant is considered one of the most valuable berry fruits for a daily diet:

- **Immune System Power:** With its naturally high Vitamin C content, this juice supports the normal function of your immune system. It is a reliable companion, especially during the cold and wet seasons.
- **Optimal Iron Absorption:** Vitamin C increases iron absorption from food. This makes the juice an ideal accompaniment to meals to optimize nutrient utilization.
- **Nervous System Protection:** Vitamin C contributes to the normal functioning of the nervous system, helping your body stay in balance even during times of stress.
- **Collagen Booster:** For the healthy function of gums, skin, and blood vessels, Vitamin C contributes to normal collagen formation.

100% Cold-Pressed Aronia Juice.
Pasteurised. No added sugars or
preservatives.

natural aronia juice - 330ml

Character & Flavor

Aronia, also known as chokeberry, is famous for its characteristically tart and astringent taste. This juice is dry, powerful, and its complexity is reminiscent of a full-bodied red wine. It is a functional natural product that unfolds its full effect when consumed pure in small quantities or mixed with other juices.

Traditional Production

Aronia berries are only harvested once they have reached their full depth of color. During pressing, we ensure that the skin components, which are rich in tannins, are gently extracted. We rely on a pure natural process without chemical additives to bring the original wildness of the berry directly into the bottle.

Health & Nutritional Science

Aronia is valued for its exceptional nutrient density and is specifically used as a dietary supplement:

- **Cell Protection Specialist:** Aronia berries provide Manganese and Vitamin C. This combination effectively contributes to the protection of cells from oxidative stress—a key factor for long-term cellular health.
- **Connective Tissue Support:** The Manganese contained contributes to the normal formation of connective tissue, which is important for the overall strength of body structures.
- **Vital Metabolism:** Manganese contributes to normal energy-yielding metabolism, helping you support your daily performance naturally.
- **Fatigue Prevention:** Vitamin C contributes to the reduction of tiredness and fatigue, making it an ideal partner for an active lifestyle.

100% Sea Buckthorn Pulp/Juice.
Pasteurised. No added sugars or
preservatives.

natural sea buckthorn juice - 330ml

Character & Flavor

Sea buckthorn is the "gold of the north." Its juice glows from sunny yellow to orange and offers a uniquely creamy consistency. The taste is intensely sour, fruity, and slightly tart—a veritable explosion of freshness that should not be missing in any household.

Traditional Production

Sea buckthorn berries are difficult to harvest, but the effort is worth it. We process the berries in a way that preserves the valuable fruit pulp oil. This gives our juice its characteristic texture and turbidity. Through cold-pressing and minimal heating, we guarantee a product of the highest biological value.

Health & Nutritional Science

Sea buckthorn is a true multi-talent among fruits and provides essential vital substances:

- **Inner Care:** Sea buckthorn is rich in beta-carotene, a precursor to Vitamin A. This contributes to the maintenance of normal skin and mucous membranes—a natural support for your appearance.
- **Vision Maintenance:** Vitamin A contributes to the maintenance of normal vision. Thus, this juice naturally supports one of your most important sensory organs.
- **Immune System Activation:** The high Vitamin C content contributes to the normal function of the immune system, which is particularly beneficial during fluctuating weather.
- **Energy & Focus:** Vitamin C contributes to the reduction of tiredness and supports normal energy-yielding metabolism for more focus in everyday life.

100% Cold-Pressed Sour Cherry Juice.
Pasteurised. No added sugars or
preservatives.

natural cherry juice - 330ml

Character & Flavor

Our sour cherry juice impresses with its deep red elegance and a harmonious interplay of fruity sweetness and fine acidity. Unlike the sweet cherry, it offers a more complex aroma that is refreshing and invigorating—a treat on its own, and unbeatable as a spritzer.

Traditional Production

Only hand-picked sour cherries are used for this juice. Processing takes place quickly after the harvest to preserve the volatile aromas of the cherry. Cold-pressing guarantees that the juice loses none of its natural tanginess. An honest product that contains no concentrates or artificial sweeteners.

Health & Nutritional Science

The sour cherry is rich in valuable minerals that actively support your body:

- **Heart & Blood Pressure:** Cherries are a natural source of Potassium. This mineral contributes to the maintenance of normal blood pressure, supporting your cardiovascular system.
- **Muscle Regeneration:** Potassium contributes to normal muscle function. This makes the juice an ideal drink for athletes and physically active people after exertion.
- **Nerve Strength:** Potassium is also essential for the nervous system, as it contributes to the normal function of signal transmission.
- **Cellular Protection:** Natural accompanying substances in the cherry help protect cells from oxidative stress and promote general vitality.

100% Cold-Pressed Red Currant Juice.
Pasteurised. No added sugars.

natural red currant juice - 330ml

Character & Flavor

Luminous, light red, and wonderfully tangy. The red currant provides a juice that impresses with its clear acidity and fine fruitiness. It is the ideal choice for those seeking a light, invigorating refreshment without heavy sweetness.

Traditional Production

The small berries are harvested in clusters and pressed immediately. We use a process that leaves the seeds undamaged to avoid transferring unwanted bitter substances into the juice. This results in a clear, pure flavor profile that transports the freshness of the garden directly into the bottle.

Health & Nutritional Science

Despite their delicate size, red currants are true nutrient powerhouses:

- **Tissue Health:** Rich in Vitamin C, this juice contributes to normal collagen formation. This is important for the normal function of the skin, blood vessels, and teeth.
- **Strong Immune System:** Vitamin C contributes to the normal function of the immune system and protects your body from external influences.
- **Energy Metabolism:** To stay vital throughout the day, Vitamin C supports normal energy-yielding metabolism and also improves the absorption of iron from your daily food.
- **Antioxidant Effect:** Vitamin C contributes to the protection of cells from oxidative stress and supports the regeneration of the reduced form of Vitamin E.

100% Cold-Pressed Blue Honeysuckle Juice (Haskap). Pasteurised. No added sugars.

natural honeysuckle juice - 330ml

Character & Flavor

The blue honeysuckle, also known as the Haskap berry or honeyberry, offers a completely new taste experience. Its juice is reminiscent of a mixture of wild blueberry and raspberry, with its very own complex note. The deep violet color and balanced aroma make it an exclusive specialty.

Traditional Production

As one of the first berries of the year, the Haskap berry is harvested with great care. Our production method focuses on preserving the intense pigments (anthocyanins) and the delicate aromas. Through gentle cold-pressing, the high quality of this rare fruit remains preserved in its purest form.

Health & Nutritional Science

The blue honeysuckle is often referred to as a modern "superfruit" due to its profile:

- **Excellent Cell Protection:** As a source of Vitamin C, this juice significantly contributes to protecting cells from oxidative stress and positively influencing cell health.
- **Defensive Powers:** Vitamin C makes an important contribution to the normal function of your immune system and strengthens your natural resilience.
- **Psychological Well-being:** Vitamin C contributes to normal psychological function and supports the resilience of your nervous system in everyday life.
- **Nutrient Diversity:** By enjoying Haskap juice, you introduce your body to a wide spectrum of secondary plant substances that are rarer in classic fruit varieties.

Organic Fruit Syrups

Culinary Heritage – The Sweet Synergy of Botanical Tradition.

The Art of Natural Refinement

Our syrups redefine the concept of fruitiness. While conventional products often consist merely of sugar and artificial flavorings, we adhere to an uncompromising recipe: 50% pure, cold-pressed direct juice and 50% sugar—nothing else. By completely avoiding preservatives, colorants, and artificial aromas, we provide a natural product of rare purity. Bottled in glass, the full bouquet of the fruit remains unadulterated, offering a taste experience as authentic as the fruit itself.

The Heritage of Traditional Plant Medicine

FloraSan syrups represent the perfect balance between the tart acidity of wild fruits and an elegant sweetness. They serve not merely as refreshments, but as a refinement for high-quality cuisine. Whether as a base for sparkling aperitifs, a warming note in tea, or a fruity highlight over desserts and fine pastries, these essences bring the vibrancy of summer into every moment.

Foundations of Our Philosophy of Indulgence

Our approach is based on core principles that combine the highest culinary standards with the functional value of nature:

- **The Signature of Purity:** With a fruit content of 50% from direct juice, we guarantee an authentic aroma. We capture the "vital force" of the berry to naturally support your body even during moments of indulgence.
- **Holistic Harmony:** We preserve the complex interplay of natural fruit acids and sweetness without synthetic aids. Our syrups retain the valuable pigments and structures that represent protection and ripeness in nature.
- **A Natural Shield:** Even in concentrated form, our syrups provide valuable nutrients. The natural content of Vitamin C contributes to the normal function of the immune system and helps protect cells from oxidative stress.

Syrup is made from natural berry juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural cranberry syrup- 500ml

Character & Flavor

This syrup captures the tart, vibrant essence of the cranberry and brings it into a perfectly harmonized, sweet balance. With its deep red brilliance and intense berry profile, it serves as a sophisticated addition to high-quality cuisine. It is ideal for refining teas, as a base for sparkling aperitifs, or as a fruity highlight over desserts and fine pastries.

Traditional Production

By using cold press technology, we ensure that the natural nuances of the berry are preserved. The juice is then refined with sugar syrup and gently pasteurised to guarantee a shelf life of 18 months—entirely without chemical aids. To preserve the unadulterated quality and the full biological power of the ingredients, we bottle our syrup exclusively in glass. Glass is taste-neutral and guarantees that the precious essences of the berries remain as pure as nature intended.

Health & Nutritional Science

A conscious indulgence that relies on the purity of nature:

- **High Fruit Content:** Made with 50% pure direct juice, providing the authentic and unaltered aroma of the berry.
- **Clean Label Promise:** We consistently avoid artificial preservatives, colorants, or synthetic flavourings.
- **Immune Support:** The Vitamin C contained in the syrup contributes to the normal function of the immune system.
- **Cell Protection:** The natural ingredients of the berry concentrate contribute to the protection of cells from oxidative stress.
- **Natural Vitality:** Vitamin C contributes to a normal energy-yielding metabolism and to the reduction of tiredness and fatigue.

Syrup is made from natural berry juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural raspberry syrup - 500ml

Character & Flavor

Experience the taste of a summer day. This raspberry syrup is exceptionally fragrant and sweet, with a velvety texture that makes it a favorite for all ages. It is the perfect natural sweetener for desserts, pancakes, or simply mixed with water for a classic, fruity drink that smells as good as it tastes.

Traditional Production

Our production process relies on cold press technology to ensure that the delicate "raspberry bouquet" and vital nutrients are not lost. Gentle pasteurisation provides a shelf life of 18 months—entirely without chemical aids. To preserve the unadulterated quality, we bottle our syrup exclusively in glass. Glass is taste-neutral and guarantees that the biologically active ingredients of the berries remain protected.

Health & Nutritional Science

A conscious indulgence that relies on the purity of nature:

- **High Fruit Content:** Made with 50% pure direct juice for an authentic and unaltered aroma.
- **Clean Label Promise:** We consistently avoid artificial preservatives, colorants, or synthetic flavourings.
- **Skin & Vessel Health:** The Vitamin C contained contributes to normal collagen formation for the normal function of the skin and blood vessels.
- **Cell Protection:** Contributes to the protection of cells from oxidative stress.
- **Metabolism:** Supports a normal energy-yielding metabolism through natural Vitamin C.

Syrup is made from natural fruit juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural quince syrup - 500ml

Character & Flavor

Experience the golden elegance of the quince in a refined, concentrated form. This syrup captures the fruit's complex flavor profile—a sophisticated balance between tart apple and fragrant pear with floral honey notes. It serves as an extraordinary addition to sparkling water, fine teas, or as a gourmet glaze for desserts and cheese pairings.

Traditional Production

We use cold press technology to preserve the delicate, volatile aromas of the fresh fruit. The juice is blended with sugar syrup and gently pasteurised. To protect the unadulterated quality and the full biological power of the ingredients, we bottle our syrup exclusively in glass. Glass is taste-neutral and ensures that the precious essences remain as pure as nature intended.

Health & Nutritional Science

A conscious indulgence for the highest standards:

- **High Fruit Content:** Made with 50% pure direct juice for an authentic flavor experience.
- **Clean Label Promise:** Guaranteed free from artificial preservatives, colorants, or synthetic flavourings.
- **Immune Support:** The Vitamin C contained contributes to the normal function of the immune system.
- **Metabolic Vitality:** Vitamin C contributes to a normal energy-yielding metabolism and the reduction of tiredness and fatigue.
- **Cellular Protection:** Natural nutrients contribute to the protection of cells from oxidative stress.

Syrup is made from natural juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural rhubarb syrup - 500ml

Character & Flavor

A refreshing spring classic in concentrated form. This syrup offers a sparkling interplay between the crisp tartness of rhubarb and a smooth sweetness. Its elegant pink hue and fresh aroma make it the perfect ingredient for sophisticated sparkling water drinks and creative cocktails.

Traditional Production

We apply cold press technology to capture the plant's vital essence. Light pasteurization preserves the freshness and allows for a shelf life of 18 months—entirely without chemical aids. To protect the unadulterated quality, we bottle our syrup exclusively in glass. Glass is taste-neutral and ensures that the authentic, tangy flavor remains pure and untouched by chemical reactions with the packaging.

Health & Nutritional Science

A conscious indulgence that relies on the purity of nature:

- **High Fruit Content:** Made with 50% pure direct juice for an authentic aroma.
- **Clean Label Promise:** We consistently avoid artificial preservatives, colorants, or synthetic flavourings.
- **Bone Health:** A natural source of Vitamin K, which contributes to the maintenance of normal bones.
- **Blood Clotting:** Vitamin K contributes to normal blood clotting.
- **Immune Resilience:** Vitamin C supports the normal function of the immune system.
- **Natural Integrity:** A pure product that maintains its quality through craftsmanship, not chemistry.

Syrup is made from natural berry juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural sea buckthorn syrup - 500ml

Character & Flavor

Known as the "Lemon of the North," our sea buckthorn syrup is a vibrant, citrusy explosion of flavor. It has a unique, creamy consistency due to the natural fruit oils. Its bold acidity is beautifully rounded off by the sugar syrup, making it an invigorating addition to both cold drinks and warm winter teas.

Traditional Production

Cold press technology is essential for sea buckthorn to preserve its high oil and vitamin content. We maintain a strict "no additives" policy, relying on light pasteurization for safety and longevity. Our glass bottles are specifically chosen because they do not react with the highly active biological components of the sea buckthorn, ensuring the product's purity.

Health & Nutritional Science

A conscious indulgence that utilizes the power of nature:

- **High Fruit Content:** Made with 50% pure direct juice for a powerful, fruity aroma.
- **Clean Label Promise:** Guaranteed free from artificial preservatives, colorants, or synthetic flavourings.
- **Immune Power:** Exceptionally high in Vitamin C, which contributes to the normal function of the immune system.
- **Vitality Boost:** Vitamin C contributes to the reduction of tiredness and fatigue.
- **Vision & Skin:** Provides Vitamin A, which contributes to the maintenance of normal vision and normal skin.
- **Cellular Defense:** Helps protect the body's cells from oxidative stress.

Syrup is made from natural berry juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural aronia syrup - 500ml

Character & Flavor

Discover the power of the aronia berry in a refined, concentrated form. This syrup is characterized by its deep, dark-purple color and a uniquely sophisticated flavor profile. It masterfully balances the berry's natural, dry notes with a gentle sweetness—ideal for those who appreciate complex fruit notes in their beverages.

Traditional Production

Our cold press technology extracts the intense pigments and robust flavors of the aronia berry without excessive heat. Gentle pasteurisation ensures a shelf life of 18 months while protecting the natural ingredients. Bottling in glass preserves the syrup's biological activity and premium quality, as glass is taste-neutral and does not react with the ingredients.

Health & Nutritional Science

A functional indulgence that relies on the purity of nature:

- **High Fruit Content:** Made with 50% pure direct juice for an authentic aroma.
- **Clean Label Promise:** Guaranteed free from artificial preservatives, colorants, or synthetic flavourings.
- **Antioxidant Support:** Rich in natural nutrients (Vitamin C) that contribute to the protection of cells from oxidative stress.
- **Immune Resilience:** The natural Vitamin C content contributes to the normal function of the immune system.
- **Connective Tissue:** Provides Manganese, which contributes to the normal formation of connective tissue.
- **Vessel Health:** Vitamin C contributes to normal collagen formation for the normal function of blood vessels.

Syrup is made from natural berry juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural cherry syrup - 500ml

Character & Flavor

Enjoy the full, dark aroma of ripe cherries in every bottle. This syrup impresses with its intense fruitiness and an elegant sweetness reminiscent of warm summer days. It is a versatile classic that transforms sparkling water into a sophisticated lemonade and perfectly complements desserts, ice cream, or fine pastries with its deep red color and full-bodied taste.

Traditional Production

We use cold press technology to preserve the characteristic fruit notes and the natural vibrant color of the cherries. Through gentle pasteurisation, we guarantee a shelf life of 18 months without any chemical additives. To optimally protect the purity and the biologically active ingredients, we bottle our syrup exclusively in glass. Glass is taste-neutral and preserves the aroma as authentically as on the day of harvest.

Health & Nutritional Science

An indulgence for connoisseurs that relies on the honesty of nature:

- **High Fruit Content:** Made with 50% pure direct juice for an unadulterated cherry experience.
- **Clean Label Promise:** Consistent avoidance of artificial preservatives, colorants, or flavourings.
- **Cell Protection:** Contains natural nutrients (Vitamin C) that contribute to the protection of cells from oxidative stress.
- **Immune Support:** The natural Vitamin C content contributes to the normal function of the immune system.
- **Natural Energy:** Vitamin C supports a normal energy-yielding metabolism and contributes to the reduction of tiredness and fatigue.

Syrup is made from natural berry juice (50%) and sugar syrup (50%). No preservatives, food additives, or flavourings. Pasteurised.

SYRUP

natural lemon syrup - 500ml

Character & Flavor

Bring the sunshine into your glass. This lemon syrup is the pure embodiment of freshness—with a tangy acidity perfectly balanced by a fine sweetness. It is an indispensable all-rounder: whether as a classic lemonade with sparkling water, a fruity note in tea, or a secret ingredient for summer sauces and dressings, it adds an invigorating lightness to every moment.

Traditional Production

We extract the juice through gentle pressing methods to preserve the full, zesty aroma of the fruit. Light pasteurisation ensures quality for 18 months—entirely without chemical preservatives. To preserve the purity and vibrant freshness, we bottle our syrup exclusively in glass. Glass is taste-neutral and guarantees that the valuable ingredients and the clear aroma remain protected from external influences.

Health & Nutritional Science

An invigorating indulgence that relies on the purity of the fruit:

- **High Fruit Content:** Made with 50% pure direct juice for an authentic, intense citrus aroma.
- **Clean Label Guarantee:** Consistent avoidance of artificial preservatives, colorants, or flavourings.
- **Immune Power:** Rich in natural Vitamin C, which contributes to the normal function of the immune system.
- **Energy Metabolism:** Vitamin C supports a normal energy-yielding metabolism and helps reduce tiredness.
- **Cell Protection:** Contributes to the protection of the body's cells from oxidative stress.

Organic Drinks

Botanical Refreshment – The Pure Vitality of Nature’s Bounty.

The Purity of Cold-Pressed Craftsmanship **The Principles of Pure Refreshment**

At FloraSan, refreshment does not mean compromising on quality. Our fruit drinks are based on our proven, cold-pressed direct juices, gently combined with pure water. By avoiding high heat during the pressing process, the vitamins and the natural vibrancy of the fruit are preserved. We use no artificial flavors, sweeteners, or preservatives. Bottled in glass, these drinks offer an unadulterated and safe refreshment that meets the highest clean-label standards.

The Heritage of Botanical Refreshment

Historically, wild berry juices have been valued as natural tonics. FloraSan continues this legacy with ready-to-drink botanical treasures, blending cold-pressed juices with pure water. We offer a high-quality, invigorating alternative to artificial drinks that provides vitalization without being heavy.

Our approach is defined by the following core principles that ensure pure enjoyment and the invigorating power of every sip:

- **The Signature of the Wilderness:** Fruits from untouched nature offer an unadulterated, wild taste. We capture this freshness to provide a moment of pure, invigorating refreshment with every sip.
- **Holistic Synergy:** True enjoyment comes from the harmonious interplay of natural fruit acids and aromas. Our drinks preserve the vibrant character of the fruit for a full-bodied and authentic taste experience.
- **Natural Vitalization:** The valuable components of our berries serve as a light, natural source of vitality. Every drink invigorates the senses and supports general wellbeing in a refreshingly simple way.

Drink made from natural berry juice, water, and sugar. No preservatives, food additives, or flavourings. Pasteurised.

DRINK

natural cranberry drink - 330ml

Character & Flavor

This drink offers the pure essence of the cranberry in a ready-to-drink composition: tart, refreshing, and invigorating. The berry's characteristic bold acidity is harmoniously balanced by a delicate sweetness. An ideal thirst quencher for those seeking the authentic aroma of wild berries in a perfectly balanced form.

Traditional Production

Thanks to our cold press technology, the vital ingredients and the intense aroma of the cranberry remain protected. Bottling in glass is essential to us: glass is taste-neutral and does not react with the biologically active components of the drink. This ensures that the natural purity and freshness are preserved down to the very last sip.

Health & Nutritional Science

An invigorating indulgence that relies on the purity of the fruit:

- **High Fruit Content:** Made with 50% pure direct juice for an authentic, intense citrus aroma.
- **Clean Label Guarantee:** Consistent avoidance of artificial preservatives, colorants, or flavourings.
- **Immune Power:** Rich in natural Vitamin C, which contributes to the normal function of the immune system.
- **Energy Metabolism:** Vitamin C supports a normal energy-yielding metabolism and helps reduce tiredness.
- **Cell Protection:** Contributes to the protection of the body's cells from oxidative stress.

NATURAL RASPBERRY DRINK 330ML

Drink made from natural berry juice, water, and sugar. No preservatives, food additives, or flavourings. Pasteurised.

DRINK

natural raspberry drink - 330ml

Character & Flavor

A summery taste experience featuring the full bouquet of sun-ripened raspberries. This drink impresses with its delicate sweetness and a velvety fruit note, perfectly highlighted by pure water. Lightly chilled, it is the ideal refreshment, bringing the feeling of a warm summer day directly to your glass—authentic, fruity, and lighthearted.

Traditional Production

We rely on cold press technology to preserve the delicate aroma and vibrant color of the raspberry without the use of excessive heat. Gentle pasteurisation ensures shelf life, while bottling in glass guarantees maximum purity. Since glass is taste-neutral and does not react with the biologically active ingredients, the drink remains exactly as nature intended.

Health & Nutritional Science

A pure indulgence that focuses on the natural vitality of the raspberry:

- **Fruit-Based:** Made from high-quality direct juice for an unadulterated berry flavor.
- **Clean Label Guarantee:** Consistent avoidance of artificial preservatives, colorants, or synthetic flavourings.
- **Cell Protection:** Contains natural Vitamin C, which contributes to the protection of cells from oxidative stress.
- **Energy Metabolism:** Vitamin C supports a normal energy-yielding metabolism and contributes to daily vitality.
- **Immune Support:** Contributes to the normal function of the immune system to support the body's natural defenses.

Drink made from natural quince juice, water, and sugar. No preservatives, food additives, or flavourings. Pasteurised.

DRINK

natural quince drink - 330ml

Character & Flavor

Experience the golden elegance of the quince in a perfectly balanced, ready-to-drink composition. This drink impresses with its complex profile—a sophisticated balance between tart freshness and the characteristic floral honey notes of the quince. An extraordinary taste experience that shines both on its own or as an accompaniment to fine dining through its refined subtlety.

Traditional Production

Using our cold press technology, we capture the delicate, precious aromas of the fresh quince without compromising them through heat. Subsequent bottling in glass is crucial for quality: glass is completely taste-neutral and guarantees that the biologically active ingredients and the delicate bouquet of the fruit remain protected and unadulterated until the moment of enjoyment.

Health & Nutritional Science

A conscious indulgence for the highest standards:

- **Fruit-Based:** Made from high-quality direct juice for an authentic flavor experience.
- **Clean Label Promise:** Guaranteed free from artificial preservatives, colorants, or synthetic flavourings.
- **Immune Support:** The Vitamin C contained contributes to the normal function of the immune system.
- **Metabolic Vitality:** Vitamin C contributes to a normal energy-yielding metabolism and the reduction of tiredness and fatigue.
- **Cellular Protection:** Natural nutrients contribute to the protection of cells from oxidative stress.

Drink made from natural berry juice, water, and sugar. No preservatives, food additives, or flavourings. Pasteurised.

DRINK

natural black currant drink - 330ml

Character & Flavor

The black currant gives this drink a profound and distinctive character. It impresses with its bold, berry-like tartness, which is perfectly balanced in this recipe by a fine sweetness. An intense flavor experience with a deep, vibrant color—ideal for those who appreciate refreshing drinks with body and profile.

Traditional Production

To preserve the valuable ingredients and the berry's characteristic essential oils, we use a gentle cold press process. Subsequent bottling in glass protects the product's purity: glass is inert and taste-neutral, ensuring no interaction with the biologically active components. This keeps the full, natural flavor unadulterated.

Health & Nutritional Science

An intense indulgence with the functional power of dark berries:

- **Fruit-Based:** Made from high-quality direct juice for maximum flavor intensity.
- **Clean Label Promise:** Free from artificial preservatives, colorants, or synthetic flavourings.
- **Immune Support:** The natural Vitamin C contained contributes to the normal function of the immune system.
- **Energy & Vitality:** Vitamin C supports a normal energy-yielding metabolism and helps reduce tiredness and fatigue.
- **Cell Protection:** Contributes to the protection of the body's cells from oxidative stress.

Drink made from natural berry juice, water, and sugar. No preservatives, food additives, or flavourings. Pasteurised.

DRINK

natural rhubarb drink - 330ml

Character & Flavor

Experience the epitome of spring-like freshness. This rhubarb drink impresses with its tangy interplay of invigorating tartness and a subtle sweetness. With its delicate pink hue and fine, characteristic aroma, it is the ideal thirst quencher for those seeking an elegant and not-too-sweet refreshment.

Traditional Production

By using cold press technology, we extract the juice so gently that the plant's vital essence and the fresh acidity of the rhubarb are fully preserved. Bottling in glass bottles protects the purity of this natural product: glass is taste-neutral and guarantees that the biologically active ingredients are not affected by the packaging—ensuring an unadulterated taste experience.

Health & Nutritional Science

A conscious indulgence that utilizes the natural power of the plant:

- **Fruit-Based:** Made from high-quality direct juice for an authentic flavor experience.
- **Clean Label Promise:** Free from artificial preservatives, colorants, or synthetic flavourings.
- **Bone Health:** A natural source of Vitamin K, which contributes to the maintenance of normal bones.
- **Blood Clotting:** The Vitamin K contained contributes to normal blood clotting.
- **Immune Resilience:** Vitamin C supports the normal function of the immune system.
- **Natural Cell Protection:** Helps protect the cells from oxidative stress.

Drink made from natural berry juice, water, and sugar. No preservatives, food additives, or flavourings. Pasteurised.

DRINK

natural cherry drink - 330ml

Character & Flavor

Enjoy the full, deep-red aroma of sun-ripened cherries. This drink impresses with its harmonious composition of natural fruit sweetness and a subtle, invigorating acidity. It perfectly captures the essence of a cherry orchard in summer, offering a velvety, full-bodied taste experience that is equally delightful on its own or as a sparkling spritzer.

Traditional Production

We use cold press technology to preserve the delicate pigments and the characteristic aroma of the cherry without the use of heat. Bottling in glass is our promise of quality: glass is inert and taste-neutral. It guarantees that the biologically active ingredients remain optimally protected and the drink tastes as pure as the day it was pressed.

Health & Nutritional Science

A refined indulgence that relies on the honesty of nature:

- **Fruit-Based:** Made from high-quality direct juice for an unadulterated cherry experience.
- **Clean Label Promise:** Consistent avoidance of artificial preservatives, colorants, or flavourings.
- **Cell Protection:** The Vitamin C contained contributes to the protection of cells from oxidative stress.
- **Immune Support:** Supports the normal function of the immune system through natural nutrients.
- **Energy Metabolism:** Vitamin C contributes to a normal energy-yielding metabolism and supports daily vitality.

Organic Kids Juices

Pure Growth – The Gentle Wisdom of Nature for the Little Ones.

The Purity of Cold-Pressed Craftsmanship **The Principles of Gentle Vitality**

For our youngest connoisseurs, we make no compromises on quality. Our kids' juices consist of mild, cold-pressed fruits whose valuable ingredients are preserved without the use of high heat. We strictly avoid added sugars, concentrates, and any artificial additives. Bottled in glass, we provide a safe and unadulterated source of nutrients that delivers exactly what growing bodies need—pure nature in its most digestible form.

The Heritage of Natural Growth

Traditionally, the best from the orchard has always been valued as the most important nourishment for children. FloraSan revitalizes this tradition by combining the vital force of wild berries and mild fruits in a child-friendly way. We bridge the gap between ancestral knowledge of natural strengthening and today's demands for healthy nutrition. In doing so, we offer an honest alternative to sugary drinks that supports natural growth and doesn't weigh the body down.

Our approach is defined by the following core principles that ensure the functional power of every drop for our children:

- **The Signature of the Wilderness:** Children also benefit from fruits grown in harsh environments that have developed a unique resilience. We capture this "vital force" to support the natural balance and inner strength during the growth phase.
- **Holistic Synergy:** Nature offers complex active compounds rather than isolated substances. Our kids' juices preserve the harmonious interplay of mild fruit acids and natural vitamins historically prized for their restorative properties.
- **A Natural Shield:** The bioactive components of our fruits serve as a natural support for children's own protective mechanisms. Every juice thus makes a valuable contribution to cell protection and the daily vitality of the immune system.

“FOR HEALTH PROTECTION”
CRANBERRY & PEAR – 200ML

100% direct juice from pears and cranberries. No added sugar. No preservatives. Pasteurised.

KIDS JUICE

natural kids juice “For health protection” cranberry & pear – 200ml

Character & Flavor

"For Health Protection" – under this motto, this drink combines the power of wild berries with the gentleness of the pear. The characteristic tartness of the cranberry is perfectly balanced by the natural, mild sweetness of ripe pears. The result is a refreshing, well-rounded flavor experience specifically developed for children aged 3 and up. An ideal companion that proves how delicious healthy protection can taste.

Traditional Production

We use gentle cold press technology to preserve the valuable ingredients of both fruits in their purest form. Bottling in the handy 200ml glass bottle is essential to us: glass is taste-neutral and guarantees that the biologically active components of the juice remain optimally protected. This preserves the natural purity without any interaction with the packaging—ensuring safe enjoyment for your little ones.

Health & Nutritional Science

A valuable contribution to your child's daily protection:

- **Age-Appropriate:** Specially formulated for kids from 3 years.
- **100% Pure Nature:** Exclusively direct juice, no added sugar, no sweeteners.
- **Immune Support:** Rich in natural Vitamin C, which contributes to the normal function of the immune system.
- **Cell Protection:** Supports the protection of cells from oxidative stress through valuable antioxidants.
- **Growth & Energy:** Vitamin C contributes to a normal energy-yielding metabolism – for active and vital children.
- **Clean Label Promise:** Guaranteed free from preservatives, colorants, or artificial flavourings.

“FOR GOOD EYESIGHT”
BLUEBERRY - PEAR - 200 ML

100% direct juice from pears and blueberries. No added sugar. No preservatives. Pasteurised.

KIDS JUICE

natural kids juice “For good eyesight” blueberry - pear - 200 ml

Character & Flavor

"For good eyesight" – this drink was inspired by the natural power of dark wild berries. The deep blue blueberry meets the mild, caressing sweetness of the pear. The result is a full-bodied yet gentle juice specifically developed for children aged 3 and up. Without any artificial additives, it offers an honest taste experience that delights little explorers and gives parents peace of mind.

Traditional Production

Through our gentle cold press technology, the delicate pigments and vitamins of the blueberry are preserved in the best possible way. Bottling in the 200ml glass bottle guarantees maximum purity: glass is taste-neutral and does not react with the valuable, biologically active ingredients. This ensures the juice remains as safe and natural as it was when it left the press—for unadulterated enjoyment.

Health & Nutritional Science

A valuable companion for your child's vision and development:

- **Age-Appropriate:** Specially formulated for kids from 3 years.
- **100% Pure Nature:** Exclusively direct juice, no added sugar, no sweeteners.
- **Cell Protection:** Rich in natural antioxidants that contribute to the protection of cells from oxidative stress.
- **Vision Support:** Contains natural nutrients that, as part of a balanced diet, support the maintenance of normal vision.
- **Immune Support:** Vitamin C contributes to the normal function of the immune system.
- **Clean Label Promise:** Guaranteed free from preservatives, colorants, or artificial flavourings.

“FOR STRONG HEALTH”
SEABUCKTHORN & APPLE – 200ML

100% direct juice from apples and seabuckthorn berries. No added sugar. No preservatives. Pasteurised.

KIDS JUICE

natural kids juice “For strong health” seabuckthorn & apple – 200ml

Character & Flavor

"For strong health" – this drink is a true powerhouse from nature. The vibrant orange seabuckthorn berry provides a striking, vital freshness, perfectly balanced by the natural sweetness of the apple for a kid-friendly taste. Specifically developed for children aged 3 and up, this juice offers an extraordinary flavor combination that naturally supports the immune systems of little explorers.

Traditional Production

We use cold press technology to gently extract the precious oils and vitamins of the seabuckthorn berry. Bottling in the 200ml glass bottle provides optimal protection for these sensitive ingredients. Since glass is completely taste-neutral and does not react with biologically active substances, we guarantee the highest level of purity and safety for your child.

Health & Nutritional Science

Strong support from nature for healthy growth:

- **Age-Appropriate:** Specially formulated for kids from 3 years.
- **100% Pure Nature:** Exclusively direct juice, no added sugar, no sweeteners.
- **Immune Support:** The high natural Vitamin C content contributes to the normal function of the immune system.
- **Strong Defenses:** Supports the body's natural defenses during demanding times.
- **Cell Protection:** Contributes to the protection of cells from oxidative stress.
- **Clean Label Promise:** Guaranteed free from preservatives, colorants, or artificial flavourings.

**“FOR LOVELY TUMMY” RASPBERRY
& PEAR – 200ML**

100% direct juice from pears and raspberries. No added sugar. No preservatives. Pasteurised.

KIDS JUICE

natural kids juice “For lovely tummy” pears & raspberry – 200ml

Character & Flavor

"For lovely tummy" – this juice was specifically developed for little gourmets who enjoy mild and harmonious flavors. The gentle, low-acidity pear provides the perfect base for the delicate aroma of sun-ripened raspberries. The result is a particularly digestible taste experience for children aged 3 and up. With no added sugar and no artificial flavorings, it offers pure fruit indulgence that keeps the tummy happy and tastes wonderful.

Traditional Production

Through our cold press technology, we capture the natural sweetness and valuable ingredients of the fruit without compromising them through heat. Bottling in the 200ml glass bottle guarantees maximum product safety: glass is taste-neutral and does not release any substances into the juice. This preserves the biological integrity of the ingredients—ensuring peace of mind for parents and a pure natural experience for the child.

Health & Nutritional Science

Gentle support from nature for a happy tummy:

- **Age-Appropriate:** Specially formulated for kids from 3 years.
- **100% Pure Nature:** Exclusively direct juice, no added sugar, no sweeteners.
- **Mild Formula:** Particularly low in acidity and tummy-friendly due to the high pear content.
- **Immune Support:** Natural Vitamin C contributes to the normal function of the immune system.
- **Cell Protection:** Helps protect cells from oxidative stress.
- **Clean Label Promise:** Guaranteed free from preservatives, colorants, or artificial flavourings.

“FOR GOOD NIGHT SLEEP”
RASPBERRY & PEAR – 200ML

100% direct juice from pears and cherries.
No added sugar. No preservatives.
Pasteurised.

KIDS JUICE

natural kids juice “For good night sleep” pears & cherries– 200ml

Character & Flavor

“For lovely dreams” – this juice was specially developed to help children wind down gently in the evening. Mild, low-acid pear provides a smooth and naturally sweet base, perfectly balanced with the delicate fruitiness of sun-ripened cherries. The result is a soft, rounded taste that soothes rather than stimulates. With no added sugar and no artificial flavorings, it offers a calm and comforting pre-bedtime treat.

Traditional Production

Using gentle cold-press technology, we preserve the natural flavors and valuable nutrients of the fruit without heat stress. Bottled in a 200 ml glass bottle, the packaging ensures maximum product safety: glass is taste-neutral and does not release any substances into the juice. This preserves the fruit’s natural integrity—providing peace of mind for parents and a pure, natural experience for children.

Health & Nutritional Science

Gentle support from nature for a restful night:

- **Age-Appropriate:** Specially formulated for children from 3 years of age.
- **100% Pure Nature:** Direct juice, with no added sugar and no sweeteners.
- **Mild Formula:** Particularly low in acidity and tummy-friendly due to the high pear content.
- **Natural Sleep Support:** Cherries naturally contain melatonin and are traditionally associated with the sleep-wake cycle.
- **Natural Vitamins:** Contribute to overall well-being.
- **Clean Label Promise:** Free from preservatives, colorants, and artificial flavorings.

Functional Berry & Herb Blends

Adaptogenic Potency – The Evolution of Traditional Vitality.

The Purity of Cold-Pressed Craftsmanship **The Foundations of Our Botanical Philosophy**

At FloraSan, the unadulterated quality of our organic juices is our top priority. In our bio-active blends, we combine the tart power of dark berries with the smoothness of fine fruits to create a harmonious balance. Through our gentle cold-pressing process, we protect the natural ingredients of the juices and the valuable herbal extracts. We provide an honest energy source based solely on the biological potency of the plants—completely free from artificial additives.

The Heritage of Natural Growth

Our formulas balance premium direct juices with botanical specialties like Schisandra and Monarda to create an aromatic depth beyond conventional juices. By utilizing the plants' natural strength, we provide a unique source of vitality for an active lifestyle through the honest synergy of fruit and herb.

Our approach is defined by the following core principles that ensure the functional power of every drop we produce:

- **The Signature of the Wilderness:** Plants like Schisandra survive extreme conditions in nature. We capture this resilience to support your body's natural balance and endurance during times of high demand.
- **Holistic Synergy:** Our formulas rely on the interplay of direct juices and herbal extracts. The natural combination of fruit acids, pigments, and essential oils supports energy metabolism and cognitive performance holistically.
- **A Natural Shield:** The high density of bio-active compounds supports the body's own protective mechanisms. The natural Vitamin C content contributes to the protection of cells from oxidative stress and helps reduce fatigue.

Apple juice, sea buckthorn juice, black currant juice, raspberry juice, strawberry juice. Extracts of: cowslip flowers and leaves, black currant leaves, rosehip fruit, mint leaves, nettle, heather. No added sugar. No preservatives.

FUNCTIONAL DRINK

Functional Berry & Herb Blend

“Immune Support” - 250ml

Character & Flavor

This elixir is far more than just a drink—it is a highly concentrated nutrient composition. We combine five of the most powerful berries with six selected herbal extracts to create a functional complex. The combination of sea buckthorn (rich in Vitamin C) and traditional herbs such as nettle and rosehip was developed to provide holistic support during times of increased physical or mental demand. A natural powerhouse for overall well-being.

Traditional Production

Thanks to cold press technology and gentle light pasteurisation, the biologically active phytonutrients and vitamins are preserved in their natural structure. Glass packaging ensures this sensitive balance remains protected without any chemical interaction.

The Functional Added Value

Maximum plant power to support your vitality:

- **Active Immune Support:** High natural Vitamin C content contributes to the normal function of the immune system—even during and after intense physical activity.
- **Antioxidant Cell Protection:** Effectively protects cells from oxidative stress through the synergy of berry antioxidants and herbal extracts.
- **Regeneration & Energy:** Vitamin C helps to reduce tiredness and fatigue and supports a normal energy-yielding metabolism.
- **Holistic Herbal Synergy:** Contains nettle and heather, traditionally valued for supporting metabolic health and vitality.
- **Uncompromising Purity:** We strictly say NO! to chemicals and additives—100% natural potency.

“INNER BALANCE”
250ML

Apple juice, cherry juice, raspberry juice.
Extracts of: meadowsweet flowers, lemon balm leaves, oregano leaves. No added sugar. No preservatives.

FUNCTIONAL DRINK

Functional Berry & Herb Blend “Inner Balance” 250ml

Character & Flavor

This functional elixir is a gentle response to the demands of a hectic daily life. The harmonious blend of sweet cherries and raspberries is perfectly complemented by the soothing power of lemon balm and meadowsweet flowers. This recipe was developed to promote moments of tranquility and naturally support inner equilibrium. A liquid wellness experience that utilizes the purity of nature to harmonize both body and mind.

Traditional Production

Our cold press technology ensures that the sensitive essential oils of the herbs and the vitamins of the berries reach the bottle intact. Bottling in glass is crucial for this elixir to preserve biological efficacy without any chemical influence.

The Functional Added Value

Targeted plant power for your inner center:

- **Nervous System & Psyche:** The natural Vitamin C contained contributes to the normal function of the nervous system and to normal psychological function.
- **Natural Relaxation:** Contains lemon balm, traditionally valued for its soothing properties and for supporting mental well-being.
- **Oxidative Stress Protection:** Vitamin C contributes to the protection of cells from oxidative stress—an important factor during daily demands.
- **Gentle Digestion:** Oregano leaves and meadowsweet are traditionally valued in herbalism for their beneficial effects on the digestive system.
- **Uncompromising Purity:** We strictly say NO! to food additives and chemicals. 100% natural potency, 0% additives.

Apple juice, sea buckthorn juice, black currant juice, raspberry juice, strawberry juice. Extracts of: cowslip flowers and leaves, black currant leaves, rosehip fruit, mint leaves, nettle, heather. No added sugar. No preservatives.

FUNCTIONAL DRINK

Functional Berry & Herb Blend “Performance & Recovery” 250ml

Character & Flavor

This elixir is the ultimate companion for an active lifestyle. Designed for athletes and fitness enthusiasts, it bundles the pure energy of five vitamin-rich berries and six metabolically active herbs. The combination of sea buckthorn and rosehip provides natural Vitamin C, while herbs like nettle and mint offer an invigorating sensation. A natural performance boost that supports the body before, during, and after training—free from artificial stimulants, using only the power of nature.

Traditional Production

Our cold press technology protects the enzymes and vitamins crucial for energy metabolism. Bottling in glass preserves the biologically active ingredients without any chemical interaction.

The Functional Added Value

Maximum plant power for your workout and recovery:

- Energy Metabolism: High natural Vitamin C content contributes to a normal energy-yielding metabolism.
- Anti-Fatigue: Vitamin C contributes to the reduction of tiredness and fatigue—perfect for long training sessions.
- Oxidative Cell Protection: Effectively protects cells from oxidative stress following physical exertion.
- Metabolic Support: Contains nettle and heather, traditionally valued for supporting metabolism and electrolyte balance.
- 100% Clean Fitness: We say NO to artificial additives, colorants, or chemicals. Pure potency without compromise.

Pear juice, cranberry juice, red currant juice, blueberry juice. Extracts of: camomile, Moldavian dragonhead, strawberry pomace. No added sugar. No preservatives.

FUNCTIONAL DRINK

Functional Berry & Herb Blend “Shape & Metabolism” 250ml

Character & Flavor

This functional vital mix was designed to support you on your journey toward a conscious lifestyle and a healthy shape. The combination of fiber-rich strawberry pomace and the tart organic acids of cranberry and redcurrant invigorates the senses. The recipe is refined with Moldavian dragonhead and camomile, both traditionally valued for promoting a pleasant stomach sensation and supporting digestion. A light, refreshing companion for your daily well-being.

Traditional Production

Thanks to our cold press technology and gentle light pasteurisation, the valuable enzymes and phytonutrients remain intact. The glass bottle guarantees that the purity of the drink is maintained and that no substances from the packaging interfere with its efficacy.

The Functional Added Value

targeted support for metabolism and well-being:

- Energy Metabolism: The natural Vitamin C contained contributes to a normal energy-yielding metabolism.
- Shape Support: Ideal as a companion within a calorie-conscious diet—free from hidden sugars or artificial sweeteners.
- Digestive Balance: Camomile and Moldavian dragonhead traditionally promote a harmonious stomach sensation and support natural digestive functions.
- Cell Protection: Helps protect cells from oxidative stress, which is particularly important during active physical exercise.
- Uncompromising Purity: We strictly say NO! to chemical additives. 100% pure plant power for your goals.

“FOCUS & ENERGY”
250ML

Pear juice, cranberry juice, blackcurrant juice. Extracts of: magnolia-vine fruit and leaves (schisandra), monarda leaves, white clover. No added sugar. No preservatives.

FUNCTIONAL DRINK

Functional Berry & Herb Blend “Focus & Energy” 250ml

Character & Flavor

This Power Mix is your natural wake-up call for long days and periods of intense concentration. The centerpiece of this recipe is the Schisandra berry (magnolia-vine), valued in herbal medicine as a powerful adaptogen for mental clarity and endurance. Combined with the freshness of monarda and the strength of dark berries, it creates an invigorating flavor profile that awakens the spirit. A functional companion designed to help you stay focused—without the caffeine crash, purely plant-based and straight from nature.

Traditional Production

We use cold press technology to preserve the bio-active compounds of the schisandra and the vitamins in the juices. Bottling in glass protects this sensitive energy depot from external influences and maintains its pure taste.

The Functional Added Value

Natural vitality for mind and body:

- **Alertness & Focus:** Contains schisandra, traditionally used to enhance mental performance and alertness.
- **Reduced Fatigue:** Natural Vitamin C contributes to the reduction of tiredness and fatigue.
- **Energy Metabolism:** Supports a normal energy-yielding metabolism for full power throughout the day.
- **Nervous System:** Vitamin C contributes to the normal function of the nervous system and psychological function.
- **Clean Label Promise:** We strictly say NO! to chemical additives and artificial stimulants. 100% natural potency.

Pear juice, cranberry juice, blackcurrant juice. Extracts of: magnolia-vine fruit and leaves (schisandra), monarda leaves, white clover. No added sugar. No preservatives.

Bio-active Mix

Botanical Synergy – Maximum Vitality through Natural Purity.

The Purity of Cold-Pressing and High Bioavailability

Our Bio-active blends prioritize functional integrity through heat-free cold-pressing. This process ensures high bioavailability by preserving ingredients in their natural botanical matrix for optimal absorption, while glass packaging protects this pure density.

The Natural Power of Ingredients

Our formulas harness the synergy of premium direct juices and targeted botanical extracts, utilizing plants valued for generations for their fortifying properties. By relying on the unadulterated power of nature and gentle production methods, we ensure maximum bioavailability. It is this honest interplay of botanical treasures that makes the Bio-active Mix a superior, natural source of daily energy and focus.

The Foundations of Biological Effectiveness

Our approach is defined by core principles that ensure the direct benefits of natural ingredients for your body:

- **Optimal Nutrient Absorption:** Gentle processing preserves natural enzymes and vitamins in a form that guarantees particularly high bioavailability of nutrients. This makes every serving an efficient support for your organism.
- **Natural Energy Metabolism:** The high natural Vitamin C content contributes to a normal energy-yielding metabolism and helps reduce tiredness and fatigue. This provides sustainable vitalization without the fluctuations typical of artificial stimulants.
- **Holistic Cell Protection & Immune System:** The bio-active compounds support the normal function of the immune system and help protect cells from oxidative stress. Thus, our blends make a significant contribution to daily resilience and the maintenance of vitality.

“VITAMIN BOOST”
200ML

Apple juice, sea buckthorn juice, black currant juice, raspberry juice, strawberry juice. Extracts of: cowslip flowers and leaves, black currant leaves, rosehip fruit, mint leaves, nettle, heather. No added sugar. No preservatives.

BIO ACTIVE POWER MIX

Bio-active Power Mix “Vitamin Boost” 200ml

Character & Flavor

This Vital Extract is a true powerhouse of nature, combining five of the most valuable berry varieties with six selected herbs. The base of sea buckthorn and black currant provides an immense density of natural vitamins, while the herbal essences of rosehip, nettle, and cowslip functionally complete the profile. Developed for individuals with an active lifestyle, this mix offers a synergistic nutrient source to tackle daily challenges with full energy.

Traditional Production

Our cold press technology guarantees that heat-sensitive vitamins and enzymes are preserved in their natural, bio-active form. Bottling in glass protects this precious recipe from external influences and ensures absolute purity without chemical residues.

The Functional Added Value

Concentrated plant power for your daily vitality:

- **Maximum Vitamin Support:** The extremely high content of natural Vitamin C supports the normal function of your immune system.
- **Vitality Boost:** Vitamin C contributes to the reduction of tiredness and fatigue and supports a normal energy-yielding metabolism.
- **Holistic Cell Protection:** Effectively protects cells from oxidative stress through a broad spectrum of natural antioxidants.
- **Herbal Synergy:** Utilizes the traditional power of nettle and rosehip to support overall well-being.
- **Clean Label Promise:** We strictly say NO! to chemical additives and artificial vitamins. 100% natural potency.

Apple juice, cherry juice, raspberry juice, meadowsweet flowers, lemon balm leaves, oregano leaves. No preservatives.

BIO ACTIVE POWER MIX

Bio-active Balance Mix “Relax & Balance” 200ml

Character & Flavor

This Vital Mix was created to provide moments of tranquility in a hectic daily life. The delicate sweetness of cherry and raspberry meets a carefully curated herbal formula. Lemon balm and meadowsweet are well-known in traditional herbal medicine for their balancing effects. Combined with oregano, this creates an aromatic flavor profile designed to promote inner equilibrium and gently harmonize both body and mind.

Traditional Production

Thanks to our cold press technology and particularly gentle light pasteurisation, the essential oils of the herbs and the natural vitamins of the fruits are preserved in their purest form. The glass bottle guarantees that this sensitive balance remains protected and that no chemical interactions with the packaging occur.

The Functional Added Value

Gentle plant power for your daily balance:

- Nervous System: The natural Vitamin C contained contributes to the normal function of the nervous system.
- Psychological Function: Supports normal psychological function—ideal for companionship during stressful times.
- Cell Protection: Contributes to the protection of cells from oxidative stress.
- Traditional Herbalism: Utilizes the relaxing properties of lemon balm and meadowsweet for holistic well-being.
- Clean Label Promise: We strictly say NO! to food additives and chemicals. 100% natural potency.

Pear juice, cranberry juice, blackcurrant juice. Extracts of: magnolia-vine fruit and leaves (schisandra), monarda leaves, white clover. No added sugar. No preservatives.

BIO ACTIVE POWER MIX

Bio-active Balance Mix “Energy Kick” 200ml

Character & Flavor

This Active Extract is nature's answer to fatigue and lack of focus. The base of pear and tart berries is enhanced with schisandra (magnolia-vine)—a plant valued in traditional herbal medicine as an adaptogen to increase vitality and endurance. Together with aromatic monarda, it creates a functional drink that invigorates both mind and body. Perfect as a natural boost in the morning or during a long workday, completely free from artificial caffeine.

Traditional Production

Thanks to our cold press technology, the valuable compounds of the schisandra berry and the natural vitamins of the pure juices remain fully intact. The glass packaging guarantees the purity of this powerhouse and prevents any chemical interference with the biologically active components.

The Functional Added Value

Natural energy source for maximum performance:

- **Anti-Fatigue:** Natural Vitamin C from blackcurrants and cranberries contributes to the reduction of tiredness and fatigue.
- **Energy Metabolism:** Supports a normal energy-yielding metabolism for more power throughout the day.
- **Mental Clarity:** Contains schisandra, traditionally used to enhance mental performance and stress resilience.
- **Strong Cell Protection:** Contributes to the protection of cells from oxidative stress—ideal during high physical or mental demand.
- **Clean Label Promise:** We strictly say NO! to chemical additives and artificial stimulants. 100% natural potency.

Exotic organic fruit juices

Discover the Power of Nature: Organic Exotic Juices & Functional HPP Gels

Welcome to the world of FloraSan, where uncompromised purity meets the untamed power of handpicked, tropical natural treasures. Our mission is to provide you with functional foods in their most authentic and biologically valuable form. Moving away from mass-market products, we have developed an exclusive selection of organic exotic juices and functional plant purees that meet the highest standards of quality and integrate seamlessly into a conscious, modern lifestyle.

Pure Plant Power in Certified Organic Quality

From the deep, ruby-red antioxidant defense of the sun-ripened Organic Goji Juice to the velvety-creamy tropical essence of our Organic Graviola Puree and the intense, traditional strength of our Organic Noni Juice – every single bottle of FloraSan stands for 100% natural purity. True to our strict clean label standard, we consistently avoid added sugars, artificial flavors, colorants, or chemical preservatives. What you receive is pure, high-density nature for your daily well-being.

The HPP Revolution: Freshness on a Whole New Level

A special highlight of our range is our innovative Aloe Vera HPP Juices and Gels. By utilizing state-of-the-art High-Pressure Processing (HPP), our aloe vera products are never subjected to thermal pasteurization. The result? Vitamins, enzymes, the natural viscosity, and the wonderfully fresh flavor of the pure, hand-filleted inner leaf gel are fully preserved in true raw-food quality – combined with an optimal and safe shelf life.

- **An Inspiring Variety:** Our classic HPP Aloe Vera with crisp pulp is just the beginning. To meet the diverse needs of a modern everyday life, our HPP Aloe Vera juice and rich gel are available in numerous other functional variations. Whether harmonizing with organic honey or soothing chamomile, activating with turmeric & ginger, or grounding with traditional ashwagandha – discover the tailor-made support for your body.

Your Gateway to the World's Treasures: Tailored to Your Needs

The product range showcased here is merely a glimpse of our passion. Thanks to our strong, global network in controlled organic cultivation, we can offer a vastly larger number of exotic organic fruit juices and raw materials upon request. Whether for demanding retail, upscale gastronomy, or as a premium ingredient for your own product formulations – FloraSan is your reliable partner for the extraordinary.

100 % natural juice
Aloe Vera
with Pulp

**NATURAL ALOE VERA JUICE
WITH PULP - 500 ML**

Ingredients: 100% aloe vera juice from certified organic cultivation.

organic aloe vera juice with pulp 500 ml

Character & Flavor

This juice offers the pure, authentic essence of the aloe vera plant: crisp, subtly herbal, and deeply hydrating. It stands out due to its unique texture, featuring real, tender aloe vera pulp that provides a distinct and refreshing mouthfeel. With its clear appearance and naturally clean aroma, it delivers an invigorating experience. Whether enjoyed as a revitalizing morning ritual, an exotic component for premium beverage creations, or chilled on its own, it offers a refined and sophisticated taste profile for health-conscious connoisseurs.

Traditional Production

Quality begins in the field with the careful selection of mature aloe vera leaves. Immediately after harvesting, the inner leaf gel is meticulously extracted by hand to ensure no bitter outer rind components enter the juice. The gel and pulp are then processed using a gentle, low-temperature method without chemical additives or artificial thickeners, fully preserving the plant's natural properties. A precise, short flash pasteurization guarantees optimal shelf life while maintaining the delicate texture of the pulp and the integrity of its valuable components.

Health & Nutritional Science

Our formula utilizes the natural properties of pure aloe vera and essential nutrients to support your body holistically:

- **Digestive Harmony:** The natural mucilage compounds found in pure aloe vera gel help soothe and support the digestive tract, contributing to overall gastrointestinal well-being and a balanced stomach environment.
- **Cellular Hydration & Protection:** Formulated to retain the plant's natural nutrient density, this juice supports optimal hydration levels at a cellular level, helping the body maintain its natural balance against daily environmental stressors.
- **Immune & Skin Vitality:** Enriched with naturally occurring vitamins and minerals, the bioactive compounds in this juice assist the body's natural defense mechanisms and promote a radiant, healthy-looking complexion from within.
- **Natural Purity:** By consistently avoiding added sugars, artificial flavors, and synthetic colorants, this juice is ideal for a clean, premium diet that focuses on functional plant power rather than empty calories.

100 % natural puree

Graviola

NATURAL GRAVIOLA PUREE - 500 ML

Ingredients: 100% Graviola from certified organic cultivation.

organic graviola puree 500 ml

Character & Flavor

This puree captures the rich, exotic essence of the graviola fruit: a complex, tropical flavor profile that masterfully balances sweet and sour notes. It impresses with its creamy, smooth texture and a brilliant white appearance. The aroma combines hints of refreshing pineapple, subtle strawberry, and a delicate touch of citrus. Whether used as a premium base for exotic smoothies, a sophisticated ingredient in high-end culinary desserts, or simply enjoyed as a powerful tropical shot, it delivers an unparalleled taste experience for demanding palates.

Traditional Production

Quality begins with the selective harvesting of perfectly ripe graviola fruits. Due to their delicate nature, the fruits are carefully processed immediately after picking. The dense pulp is gently separated from the skin and seeds using a cold-pressing technique that prevents exposure to high heat. This ensures that the characteristic velvety texture, vibrant aroma, and natural color are fully preserved. A gentle flash pasteurization guarantees microbiological safety and shelf life without compromising the product's premium quality.

Health & Nutritional Science

Our formula utilizes the unique natural profile of pure graviola and its essential elements to support your body holistically:

- **Antioxidant Defense:** Graviola is naturally rich in bioactive compounds and Vitamin C, which help protect cells from oxidative stress and support the body's natural resilience against environmental factors.
- **Immune System Support:** The high density of essential nutrients and vitamins delivers a proven contribution to the normal function of the immune system, especially during demanding or stressful periods.
- **Natural Revitalization:** Formulated to maintain the fruit's natural nutrient density, this puree provides essential micronutrients that contribute to an optimal energy-yielding metabolism and help counteract daily fatigue.
- **Natural Purity:** By consistently avoiding added sugars, artificial thickeners, or chemical preservatives, this puree offers a clean, functional food experience that prioritizes natural density over empty calories.

100 % natural juice
Noni

ORGANIC NONI JUICE - 500 ML

Ingredients: 100% Noni from certified organic cultivation.

organic noni juice 500 ml

Character & Flavor

This juice represents the pure, unadulterated power of the noni fruit: a highly unique, intense, and robust flavor profile characterized by deep earthy, tart, and slightly pungent notes. It features a rich, dark amber color and a powerful, characteristic aroma that reflects its untamed tropical origins. True to its nature, it is not a casual refreshment but a premium functional beverage. Whether taken as a concentrated morning shot or diluted with water or quality fruit juices, it offers an authentic and powerful experience for health-conscious purists.

Traditional Production

Quality begins with certified organic cultivation in nutrient-rich volcanic soils. The wild-growing noni fruits are harvested by hand at the perfect stage of maturity when they turn translucent. Following traditional methods, the fruits are carefully washed and gently pressed using a cold-pressing technique. The raw juice is then allowed to age traditionally, which naturally mellows the harsh flavor profile while enhancing its stability. A gentle, brief flash pasteurization ensures maximum shelf life while fully safeguarding the complex matrix of active botanical ingredients.

Health & Nutritional Science

Our formula utilizes the deep botanical profile of pure organic noni and its natural components to support your body holistically:

- **Cellular Resilience:** Noni juice is naturally packed with unique phytochemicals, iridoids, and antioxidants that help shield cells from free radicals and support the body's natural defenses against oxidative stress.
- **Vitality & Stamina:** The synergistic combination of naturally occurring micronutrients and organic acids helps optimize energy production, aiding the body in mastering daily physical challenges and reducing feelings of fatigue.
- **Metabolic Balance:** The traditional active compounds in pure noni juice support general metabolic processes, contributing to an inner balance and helping to maintain overall physiological well-being.
- **100% Organic Purity:** True to the clean label standard, this juice is free from added sugars, artificial flavors, preservatives, or blending juices, ensuring an uncompromised, high-density functional food experience.

100 % natural juice

Goji

NATURAL GOJI JUICE - 500 ML

Ingredients: 100% Goji from certified organic cultivation.

organic goji juice 500 ml

Character & Flavor

This juice captures the vibrant, sun-ripened energy of the goji berry: a distinctive, complex flavor profile that is pleasantly tart, slightly earthy, and rounded off with a subtle natural sweetness. It boasts a deep, brilliant ruby-red color and an aroma that reflects the pristine fields of its organic cultivation. Whether consumed as an invigorating morning shot, used as a premium, nutrient-dense base for functional smoothies, or gently diluted with water, it provides an authentic and refreshing taste experience for discerning individuals.

Traditional Production

Quality begins with strict organic farming in optimal, sunny microclimates. The delicate goji berries are carefully harvested by hand at their peak of maturity to avoid bruising. Immediately after harvesting, the berries undergo a gentle cold-pressing process without any high heat or chemical extraction methods. This ensures that the berry's natural nutrient density, vivid color, and unique flavor profile are fully preserved. A swift, gentle flash pasteurization guarantees long-term shelf life while protecting the integrity of the valuable botanical compounds.

Health & Nutritional Science

Our formula utilizes the exceptionally rich nutrient profile of pure organic goji berries to support your body holistically:

- **Premium Antioxidant Defense:** Naturally rich in Vitamin C and unique carotenoids, this juice makes a proven contribution to protecting cells from oxidative stress caused by free radicals and environmental factors.
- **Immune Resilience:** The natural concentration of essential vitamins and immune-active polysaccharides supports the normal function of the immune system, keeping your body's natural defenses strong during times of stress.
- **Energy & Vitality:** Formulated to retain the berry's natural density of micronutrients, it helps optimize the body's energy-yielding metabolism, effectively helping to reduce daily tiredness and fatigue.
- **100% Organic Clean Label:** Free from added sugars, artificial colors, preservatives, or synthetic flavors, this juice provides pure, high-density plant power in line with the strictest clean label standards.

organic juice HPP
Aloe Vera
WITH PULP

organic juice HPP aloe vera with pulp - 1000 ml

Character & Flavor

This premium organic juice offers the pure, unheated essence of the aloe vera plant: crisp, subtly herbal, and deeply hydrating. Thanks to innovative HPP technology, it retains the taste profile of a freshly harvested plant. It stands out due to its unique texture, featuring real, tender aloe vera pulp (99.5% pure leaf gel) that provides a distinct and refreshing mouthfeel. With its clear appearance and naturally clean aroma, it delivers an invigorating experience. Whether enjoyed as a revitalizing morning shot, an exotic component for premium beverage creations, or chilled on its own, it offers a refined and sophisticated taste profile for health-conscious connoisseurs.

Traditional Production

Quality begins in certified organic fields with the careful selection of mature aloe vera leaves (*Aloe barbadensis* Miller). Immediately after harvesting, the inner leaf gel is meticulously extracted to ensure no bitter outer rind components enter the juice. To fully preserve the plant's delicate nutrient profile, the juice is never exposed to high pasteurization temperatures. Instead, it is treated using state-of-the-art High-Pressure Processing (HPP). This gentle cold-preservation method utilizes extreme water pressure to guarantee optimal shelf life and microbiological safety while completely preserving the natural color, fresh flavor, and integrity of the valuable ingredients.

ORGANIC JUICE HPP ALOE VERA WITH PULP - 1000 ML

Ingredients: Organic purified aloe vera juice (99.5%) (*Aloe barbadensis* Miller), acidity regulator (citric acid), antioxidant (ascorbic acid).

Health & Nutritional Science

Our formula utilizes the natural properties of pure organic aloe vera and essential nutrients to support your body holistically:

- **Digestive Harmony:** The natural mucilage compounds found in pure, high-quality aloe vera leaf gel help soothe and support the digestive tract, contributing to overall gastrointestinal well-being and a balanced stomach environment.
- **Cellular Hydration & Protection:** Enriched with ascorbic acid (Vitamin C), this juice contributes to the protection of cells from oxidative stress caused by free radicals, supporting your body's natural resilience against environmental factors.
- **Immune & Skin Vitality:** Vitamin C makes a proven contribution to the normal function of the immune system. Combined with the naturally occurring bioactive compounds of the aloe plant, it supports overall vitality and promotes a healthy-looking appearance from within.
- **100% Organic Clean Label:** By consistently avoiding added sugars, artificial thickeners, synthetic flavors, and thermal processing, this juice is ideal for a premium, conscious diet that focuses on raw-quality plant power rather than empty calories.

organic juice HPP
Aloe Vera
WITH HONEY

organic juice HPP aloe vera with honey- 1000 ml

Character & Flavor

This premium organic juice combines the pure, unheated essence of the aloe vera plant (94.5%) with a delicate touch of organic honey (5%). Thanks to innovative HPP technology, it retains the crisp, subtly herbal profile of a freshly harvested plant, beautifully rounded off by the smooth, natural sweetness of golden honey. It features a bright, translucent appearance and a warm, comforting aroma. Whether enjoyed as a soothing morning ritual, a functional ingredient for refined wellness drinks, or gently chilled on its own, it offers a perfectly balanced, velvety taste experience for health-conscious connoisseurs.

Traditional Production

Quality begins in certified organic fields with the careful selection of mature aloe vera leaves (*Aloe barbadensis* Miller) and the sourcing of premium organic honey. Immediately after harvesting, the inner leaf gel is meticulously extracted to keep the juice completely free of bitter outer rind components. To fully protect the delicate, heat-sensitive nutrients of both the aloe vera and the raw honey, the blend is never heated. Instead, it is preserved using state-of-the-art High-Pressure Processing (HPP). This gentle coldmethod uses extreme water pressure to guarantee optimal shelf life and microbiological safety while completely preserving the natural color, fresh flavor, and integrity of the valuable ingredients.

ORGANIC JUICE HPP ALOE VERA WITH HONEY- 1000 ML

Ingredients: Organic purified aloe vera juice (94.5%) (*Aloe barbadensis* Miller), organic honey (5%), acidity regulator (citric acid), antioxidant (ascorbic acid).

Health & Nutritional Science

Our formula utilizes the time-honored synergy of pure organic aloe vera, high-quality honey, and essential elements to support your body holistically:

- **Soothing Digestive Comfort:** The natural mucilage compounds of pure aloe vera leaf gel, traditional paired with the enzymatic properties of organic honey, help soothe the digestive tract and promote an inner physiological balance.
- **Cellular Defense via Vitamin C:** Enriched with ascorbic acid (Vitamin C), this juice makes a proven contribution to protecting cells from oxidative stress caused by free radicals and environmental factors.
- **Immune & Energy Support:** Vitamin C delivers a verified contribution to the normal function of the immune system and a healthy energy-yielding metabolism, helping you maintain resilience and vitality throughout the day.
- **100% Organic Clean Label:** By consistently avoiding added refined sugars, artificial thickeners, chemical preservatives, and thermal pasteurization, this juice offers a clean, raw-quality functional beverage that relies purely on natural nutrient density.

FloraSan

organic juice

Aloe Vera

WITH CHAMOMILE & STEVIA

ORGANIC JUICE HPP
ALOE VERA
WITH CHAMOMILE & STEVIA- 1000 ML

Ingredients: Organic purified aloe vera juice (99.0%) (Aloe barbadensis Miller), organic chamomile extract (0.5%), acidity regulator (citric acid), antioxidant (ascorbic acid), sweetener (steviol glycosides from stevia).

organic juice HPP aloe vera with chamomile & stevia- 1000 ml

Character & Flavor

This premium organic juice offers a unique, deeply soothing wellness blend, combining pure, unheated aloe vera juice with organic chamomile extract. Thanks to state-of-the-art HPP technology, the fresh, clean taste of the aloe plant is perfectly preserved and complemented by the gentle, floral essence of chamomile flowers. Gently sweetened with plant-derived stevia extract, it provides a light, pleasant sweetness completely free of sugar or calories. It features a bright, clear appearance and a calming, comforting aroma. Whether enjoyed as a relaxing evening ritual, a mindful self-care drink, or served chilled, it delivers a harmonious and velvety taste profile for health-conscious purists.

Traditional Production

Quality begins with hand-selected organic aloe vera leaves (Aloe barbadensis Miller) and premium organic chamomile. Immediately after harvest, the pure inner leaf gel is carefully extracted to avoid any bitter outer rind components. To protect all heat-sensitive nutrients and delicate floral botanicals, the formula is never heated. Instead, state-of-the-art High-Pressure Processing (HPP) uses gentle water pressure to ensure optimal shelf life and safety while fully preserving the natural color, fresh flavor, and integrity of all ingredients.

Health & Nutritional Science

Our formula utilizes the natural synergies of organic aloe vera, comforting chamomile, and essential elements to support your body holistically:

- **Relaxation & Digestive Calm:** The traditional combination of pure aloe vera gel and premium chamomile extract provides a soothing effect on the gastrointestinal tract, promoting inner balance and digestive comfort.
- **Antioxidant Support via Vitamin C:** Enriched with ascorbic acid (Vitamin C), this juice makes a proven contribution to protecting cells from oxidative stress and environmental factors.
- **Immune & Physical Resilience:** The natural concentration of Vitamin C supports the normal function of the immune system, helping your body maintain its natural defenses during demanding periods or seasonal changes.
- **Zero-Sugar Functional Food:** Utilizing steviol glycosides from stevia, this juice delivers an enjoyable sweetness without adding empty calories or affecting blood sugar levels, making it ideal for a clean label diet.

organic gel HPP
Aloe Vera
WITH PULP

ORGANIC GEL HPP ALOE VERA WITH PULP- 1000 ML

Ingredients: Organic purified aloe vera gel (99.5%) (Aloe barbadensis Miller), acidity regulator (citric acid), antioxidant (ascorbic acid).

organic gel HPP aloe vera with pulp- 1000 ml

Character & Flavor

This premium organic gel offers the most authentic, unheated representation of the aloe vera plant, maintaining a rich and naturally viscous gel consistency. Thanks to innovative HPP technology, it delivers the raw, clean profile of freshly harvested inner leaf gel. It stands out due to its substantial texture, packed with real, tender aloe vera pulp (99.5% pure leaf gel) that creates a dense and profoundly hydrating mouthfeel. Clear in appearance with a pristine, subtly green aroma, it provides an unadulterated functional experience. Perfect as a highly concentrated morning ritual, a premium stabilizing base for advanced wellness beverages, or enjoyed purely chilled, it meets the highest standards of clean nutrition.

Traditional Production

Quality begins in certified organic fields with the rigorous selection of mature aloe vera leaves (Aloe barbadensis Miller). Immediately after harvesting, the dense inner leaf gel is meticulously extracted and filleted by hand to ensure no bitter aloin or outer rind components compromise the batch. To preserve the delicate, heat-sensitive polysaccharide structure of the gel, the product is never subjected to thermal pasteurization. Instead, it is treated using advanced High-Pressure Processing (HPP). This gentle cold-preservation process applies extreme water pressure to secure absolute microbiological safety and shelf life while fully safeguarding the gel's natural viscosity, fresh flavor, and functional integrity.

Health & Nutritional Science

Our formula utilizes the natural characteristics of pure organic aloe vera gel and critical micronutrients to support your body holistically:

- **Gastrointestinal & Digestive Comfort:** The rich, natural mucilage and complex polysaccharides inherent in pure aloe vera leaf gel gently coat and soothe the digestive tract, encouraging optimal gastrointestinal harmony and balance.
- **Cellular Defense via Vitamin C:** Fortified with ascorbic acid (Vitamin C), this gel delivers a proven contribution to protecting cells from oxidative stress caused by free radicals and environmental factors.
- **Immune & Tissue Support:** The targeted addition of Vitamin C effectively supports the normal function of the immune system. In synergy with the raw plant compounds of the aloe gel, it promotes overall physical vitality and assists in maintaining healthy-looking skin from within.
- **100% Organic Clean Label Gel:** By strictly avoiding added sugars, artificial thickening agents, synthetic colorants, and heat, this functional gel provides clean, raw-quality plant properties focused entirely on biological nutrient density.

FloraSan

organic gel HPP

Aloe Vera

WITH TURMERIC & GINGER

organic gel HPP aloe vera with turmeric & ginger - 1000 ml

Character & Flavor

This premium organic gel delivers an invigorating and deeply functional wellness blend, combining pure, unheated aloe vera gel with organic turmeric and ginger extracts. Thanks to innovative HPP technology, the clean, crisp base of the aloe plant is perfectly preserved and enhanced by the bold, spicy, and warming notes of ginger, paired with the earthy depth of turmeric. It features a vibrant, golden-yellow appearance and a sharp, stimulating aroma. Whether taken as a powerful morning ritual to kickstart the day, used as a premium base for functional tonic drinks, or enjoyed chilled, it offers an intense and revitalizing taste profile for health-conscious connoisseurs.

Traditional Production

Quality begins in certified organic fields with the strict selection of mature aloe vera leaves (*Aloe barbadensis* Miller) and high-quality turmeric and ginger roots. Immediately after harvesting, the inner leaf gel is meticulously extracted to ensure the product remains free from any bitter outer rind components. To protect the delicate, heat-sensitive volatile oils and active compounds of the botanical extracts and the aloe gel, the blend is never exposed to thermal pasteurization. Instead, it is processed using advanced High-Pressure Processing (HPP). This gentle cold-preservation method uses extreme water pressure to guarantee optimal shelf life and absolute safety while completely preserving the natural color, fresh spice, and functional integrity of all ingredients.

ORGANIC GEL HPP ALOE VERA WITH TURMERIC & GINGER- 1000 ML

Ingredients: Organic purified aloe vera gel (99.0%) (*Aloe barbadensis* Miller), organic turmeric extract (0.5%), organic ginger extract (0.5%), acidity regulator (citric acid), antioxidant (ascorbic acid).

Health & Nutritional Science

Our formula utilizes the potent botanical synergy of organic aloe vera, warming ginger, golden turmeric, and essential elements to support your body holistically:

- **Digestive & Metabolic Activation:** The combination of pure aloe vera gel with the natural bitter and pungent compounds of ginger and turmeric supports gastrointestinal comfort and helps stimulate natural digestive processes.
- **Antioxidant Protection via Vitamin C:** Enriched with ascorbic acid (Vitamin C), this gel makes a proven contribution to protecting cells from oxidative stress caused by free radicals and environmental factors.
- **Immune & Vitality Boost:** The targeted addition of Vitamin C delivers a verified contribution to the normal function of the immune system. In synergy with the bioactive compounds of turmeric and ginger, it reinforces the body's natural defenses and supports energy levels.
- **100% Organic Clean Label Gel:** By consistently avoiding added sugars, artificial thickeners, chemical preservatives, and thermal processing, this functional gel offers pure, raw-quality plant power focused entirely on nutritional density.

FloraSan

organic gel HPP

Aloe Vera

WITH ASHWAGANDHA & STEVIA

**ORGANIC GEL HPP
ALOE VERA WITH
ASHWAGANDHA & STEVIA - 1000 ML**

Ingredients: Organic purified aloe vera gel (99.0%) (Aloe barbadensis Miller), organic ashwagandha root extract (0.5%), acidity regulator (citric acid), antioxidant (ascorbic acid), sweetener (steviol glycosides from stevia).

organic gel HPP aloe vera with ashwagandha & stevia - 1000 ml

Character & Flavor

This premium organic gel offers a sophisticated, deeply grounding wellness formulation, combining pure, unheated aloe vera gel with organic ashwagandha root extract. Thanks to advanced HPP technology, the clean, crisp essence of the aloe plant is perfectly preserved and paired with the distinct, subtly herbal and earthy undertones of traditional ashwagandha. Delicately sweetened with plant-derived stevia extract, it provides a pleasant, smooth sweetness entirely free of sugar or calories. It features a bright, translucent appearance and a calming, balanced aroma. Whether integrated into a mindful evening self-care routine, taken as a functional morning ritual, or enjoyed chilled, it delivers a refined and velvety taste experience for health-conscious purists.

Traditional Production

Quality begins in certified organic fields with the meticulous selection of mature aloe vera leaves (Aloe barbadensis Miller) and premium organic ashwagandha roots. Immediately after harvesting, the inner leaf gel is carefully extracted to ensure the product remains free from any bitter outer rind components. To protect the delicate, heat-sensitive active phytochemicals and functional compounds of both the botanical root extract and the aloe gel, the blend is never exposed to thermal pasteurization. Instead, it is processed using innovative High-Pressure Processing (HPP). This gentle cold-preservation method uses extreme water pressure to guarantee optimal shelf life and absolute safety while fully safeguarding the natural color, clean flavor, and structural integrity of all ingredients.

Health & Nutritional Science

Our formula utilizes the natural properties of organic aloe vera gel, time-honored ashwagandha root, and essential elements to support your body holistically:

- **Inner Balance & Adaptogenic Harmony:** The synergy of pure aloe vera gel and premium ashwagandha root extract supports the body's natural capacity to adapt to environmental factors, promoting inner equilibrium and physical well-being.
- **Antioxidant Support via Vitamin C:** Enriched with ascorbic acid (Vitamin C), this functional gel makes a proven contribution to protecting cells from oxidative stress caused by free radicals and environmental stressors.
- **Immune & Nervous System Resilience:** The targeted addition of Vitamin C delivers a verified contribution to the normal function of the immune system and supports a healthy energy-yielding metabolism, helping you maintain vitality during demanding periods.
- **Zero-Sugar Clean Label Gel:** Utilizing steviol glycosides from stevia, this gel provides an enjoyable flavor without adding empty calories or impacting blood sugar levels, making it ideal for a clean, premium, and functional diet.
